Main Store Phone 25 — BLAIRMORE — Greenhill Store Phone 28

## CROWS' NEST PASS GOLF ASSOCIATION

The programme for the annual tournament of the Crows' Nest Pass Golf Association, to be held on the Crows' Nest Pass Golf and Country Club course at Blairmore on June 1st, 2nd and 3rd, has just been issued from The Enterprise presses.

Every effort is being made to make this tournament the best ever held by the association.

Copies of the programme may be obtained upon application to Mr. M. G. Rhynas, the secretary, Blairmore.

The annual meeting of the association will be held at the Greenhill hotel at 8.30 p.m. on Sunday, June 2nd.

In connection with the tournament, luncheon will be served each day from 11 a.m. to 4 p.m. to golfers, visitors and friends at a nominal charge.

The distribution of prizes will be made on Monday afternoon at the conclusion of the tournament.

The tournament is open only to members of clubs in good standing from Lethbridge to Cranbrook. Fees are: men \$1.00, ladies \$2.00, covering all events during the three days. When the above fees are not taken advantage of, the charges will be, men \$2.00 per day, ladies \$1.00. All entries should be made to the secretary on or before 8 p.m. Friday, May 31st.

The draw will be made that evening. Also, intending visitors may have hotel reservations made by applying to the secretary.

## OF INTEREST TO MOTORISTS

The auto traffic through The Pass is showing a marked increase, and the number of accidents is increasing in proportion.

It has been found that these accidents are chiefly caused by carelessness and speeding, and it appears that the speed regulations are honored more in the breach than the observance thereof, and we learn that it is the intention of the police to prosecute all offenders without further warning.

A few don'ts at this time might be beneficial if adhered to:

Don't attempt to pass another car going in the same direction on a blind corner, or when another car is approaching from the opposite direction. The highway, as a rule, is not wide enough for three cars to pass safely.

Don't operate your car at night with only one headlight. A car with one light is a menace.

Don't operate your car with faulty brakes.

Don't follow too closely behind the car in front. It may stop suddenly.

Don't travel faster than twenty miles per hour within the limits of a city, town or village, and don't travel faster than thirty miles per hour outside these limits.

The speed limit when approaching a blind corner is twelve miles per hour.

Sir Clifford Sifton dropped dead in the Roosevelt hospital at New York on Wednesday morning of this week, following a heart attack. He was sixty-eight years of age. Surviving sons are: John W. of the Manitoba Free Press, Winnipeg; Harry A., financier, of Toronto; Clifford, junior, barrister, of Toronto, and Victor, of the Regina Leader and Post.

Whatever you do, don't miss this supreme entertainment on Wednesday at the Orpheum, "Love Me, and the World is Mine." All-star cast. This is one of the big ones, and you will say it when you see it.

Tuesday, at the Orpheum, fine colorful story of daring youth, with thrills, heart-throbs, love, romance, adventure and all those elements that are so essential to success. You'll find "Marked Money" a very entertaining picture.

## "THE BEAUTY SHOP"

While the attendance at "The Beauty Shop" was not as large as anticipated, still the efforts of the Elks' social committee to stage an entertainment worth while and to put it over on the right side financially, were quite successful.

From start to finish, the program on each of the three nights was brimful of pep, every artist performing his or her part in a manner that displayed the effect of careful and competent training, and the fact that a lot of local talent was unearthed that otherwise would never have been known, leaves a lot to be thankful for.

Now that a start in this direction has been made by Mr. Lewis, it is hoped that plans will be made for a continuation of such entertainments.

## RED TRAIL ASSOCIATION MEETS AT PINCHER CREEK

An important meeting of representatives of district boards of trade and branches of the Red Trail Association was held at Pincher Creek last night and was very largely attended, delegates coming from all points between Taber, Alberta, and Cranbrook and Kimberley, British Columbia.

The object of the meeting was to memorialize the provincial and federal governments upon matters pertaining to better roads and means of entertainment of the tourist traffic, which is growing to an enormous extent through the Crows' Nest Pass and which promises this season to about double the traffic of last year. Special attention is being given to the distribution of literature, featuring mainly the scenic advantages of the Crows' Nest Pass and the "Wonderful Waterton."

Already, an extensive programme has been undertaken by the governments to have the Macleod-Carleton-Waterton and the Pincher Creek-Waterton trails built up to a high standard for traffic, which in that direction will this season be far heavier than ordinarily.

## HILLCREST PYTHIAN SISTERS WIN CHAMPIONSHIP CUP

In the degree competitions staged in the local lodge hall last night between teams from Mizpah Temple No. 9, Hillcrest; Progressive Temple No. 3, Coleman; and Greenhill Temple No. 10, Blairmore, the Hillcrest team was awarded the cup with a maximum of marks 90, while Blairmore secured 89 1/2 and Coleman 87. The judges were: Mrs. Martin and Mrs. Smith, of Lethbridge, and Mrs. Little, of Michel.

Following the degree work, the Powell cup was presented the winners by Mrs. Smith, who complimented them highly upon the excellent manner in which their work was performed. Receiving the cup, Mrs. Haggerty, as captain of the winning team, thanked the gathering for this recognition of their meagre effort.

Following the meeting refreshments were served, some 125 occupying the tables.

Among those present were sisters from Lethbridge, Hillcrest, Coleman, Corbin and Michel.

A beautiful lamp drawn for at this session was won by Mrs. Dickson, of Coleman.

## HOCKEY CHAMPIONS RECEIVE COVETED CUP

The D. E. Black Cup, emblematic of the Intermediate Hockey Championship of Alberta, has been received by the Blairmore club and is now on exhibition in Scott's store, bearing the latest shield worded: "1928-1929, won by Blairmore."

Coming soon, "Uncle Tom's Cabin," the miracle of the screen.

## Clean Up, Paint Up, Keep It Up -- Increases the Value of Your Property

### THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness  
Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on! Cleanliness has a history. Its influence can be traced down the ages. Those races that were clean were the races that were Masters.

The Athenians, with their baths and beautiful homes conquered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens beat back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the daintiest monarch France ever had and one of her mightiest. Filth kept the Panama Canal from being built years before it finally was. Belshazzar's Feast was the result of the dirt and the ignorant gained control in Russia— anarchy breeds in filth and equal-or.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war. Real people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play at last.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Tin cans, flies, refuse, dirt, waste paper, unsightly buildings, unsanitary surfaces are taboo. The drive is on. I won't be stopped.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make the old enemies, Dirt and Disease and Unsightliness abdicate forever.

save a few dollars in the beginning but may cost more than double in the end.

5. **Pat Resinous Wood Not Properly Seasoned or Prepared for Painting.** This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine and resin. It is the resin that causes the trouble. It mixes with the paint and makes it brittle. The knots are the worst spots and should be coated with shellac before painting.

Turpentine dissolves resin. This fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual in the second coat, but, when every care is taken, paint will sometimes peel on yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the wood are necessary to success on yellow pine.

6. **Boiled Oil.** Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil; its preparation gives a glossy, varnish-like surface, and the priming coat should always be flat, or the succeeding coat will not adhere to it. Boiled oil should never be used for any coat in outside painting.

Paint may fall from causes other than those named because of application on dirty or greasy surfaces; because of leaky roofs; because of the use of adulterated linseed oil and poor brushes; because the under-coats are too thick, or because the under-coats are not dry—but the majority of cases are covered by the causes specifically named in this article.

**BABIES GAIN BY THIS SIMPLE METHOD**

Doctors say, souring waste in baby's digestive tract is usually back of any failure to gain weight according to schedule. And the best proof, this is true, is the quick way, weak, fretful, puny babies improve when you cleanse their stomachs and bowels and put them in order with a few doses of purely-vegetable, pleasant-tasting, Fletcher's Castoria.

This gentle, harmless preparation is the doctor's first thought to relieve those of babies and children, such as colds, gas, constipation, diarrhea, colds, etc. Just be sure you get genuine Castoria in the bottle that bears the Fletcher's signature.

**Home Decoration**

Large patterned material should be chosen only for large rooms, and then sparingly, as one is apt to grow restless from seeing too much of it. This does not mean that large designs are bad, but that they require extreme care and skill in their selection, whereas a small pattern is usually safe.

We have observed that the value of anything depends a good deal on whether you are wanting to buy it or trying to sell it.

**Heart Trouble Hands and Feet Numb and Cold**

Mrs. Wm. Fowler, Auburn, Ont., writes: "Several years ago I was troubled with my heart and nerves so much, at times, my hands would become numb and cold. I took doctor's medicine for a while, but it was little or no good. I happened to see

advised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

#### Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your homes, offices and stores in other than metal boxes. Use safety matches.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wire; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and fill by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ashes in other than metal cans.

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous bonfire.

Loss through preventable fires in the United States is \$250,000,000 which, however, is exceeded by the annual loss through the lack of painting—according to Prof. H. H. King, who has conducted paint tests for several years for the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance rates; increases property values; remove unsafe buildings; swat the fly; make school and home gardens; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and utilize waste; make more attractive and safer homes and places of business, and develops a community spirit that permanently makes a cleaner, safer, healthier and more beautiful town.

**Don't Neglect Painting Up**

Make the Paint-Brush the Partner of the Scrub Brush in Your Campaign Against Dirt

Clean-Up goes hand in hand with Paint-Up. When you have dusted and swept and mopped the corners and the open spaces, put the paint brush to work. It will be easy to keep things clean then. A painted surface does not accumulate dirt like an unpainted one does. Besides, dirt is more obvious on a painted surface, and less apt to be ignored. Paintfulness is the best incentive to cleanliness—which you know is "next to godliness."

Make the paint brush the partner of the scrubbing brush. They make a whole team. Enlist both of them for Clean-Up and Paint-Up.

It doesn't need much argument to convince a man that his house and his barn and his whole farm will be worth more money if the buildings are kept in the best order.

**Don't Forget the Garden**

You Can Make Enough Out Of the Back Yard To Paint Your House

Don't forget that garden this year. Gardens save thousands of dollars for householders, they conserve and add to the food supply and give many persons a healthy and inexpensive form of outdoor exercise.

Cultivating the back yard regularly will save enough money to save the house for years, by painting it regularly. The work is congenial and creates contentment and "garden sass."

**Clean-Up and Paint-Up On the Farm**

The man who owns a farm or lives on one should be just as much interested in Clean-Up and Paint-Up as the city householder. And the incentive to start such campaigns has been just as marked in the rural districts as in the more thickly populated ones.

Farmers everywhere are being urged to remove ramshackle buildings, repair and paint those that remain, trim hedges and trees, and clean and paint tools and machinery.

Hoisting of the National flag in Manchuria on December 31, placed the greater part of China under the Nationalist government.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

#### These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean-Up and Paint-Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Clean your rubbish to the dumping ground.

2. Suggest to several men with teams, that they drive through the alleys with a sign, "Clean-Up Waggon" on their waggon; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.

3. Burn all rubbish that will burn. Clean your vacant lots and alley ways.

4. Make your street and parking look as trim and well kept as possible.

5. Refrain from throwing old paper, banana and orange skins into the streets.

6. Plant some grass and flower seeds to make your home beautiful.

7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.

8. If there are unnecessary, unsightly sheds in your back yard, tear them down. They detract from the beauty of your home and the town. Open spaces and fresh air are better.

9. If your walk is an eyesore to those travelling over it, repair it or build a new one.

10. Trim hedges and trees and spray trees.

11. Paint and whitewash barns, poultry houses, outbuildings, etc.

12. Paint tools and machinery.

The local "Clean-Up and Paint-Up" campaign offers the most direct and practical and permanent avenue through which women, organized or individual, can work for homes and home towns beautiful and sanitary.

**Keeps Floors Beautiful**

Beautiful floors are largely a matter of prevention—the great secret is to put them in perfect condition—and then keep them that way.

Doors, windows, sills and tracks become worn and unsightly first. You can keep these spots looking well by waxing them frequently. This requires but little time and effort if a good prepared wax and floor polishing brush are used.

**The Clean Town Is the Healthy Town**

Germs Lurk in Filth and Clean-Up and Paint-Up Will Chase Them Away

It long has been a well known fact that dirt and disease walk hand in hand. Influenza, typhoid, pneumonia, tuberculosis, and other germ diseases exist because dirt exists. Get rid of dirt, and many diseases will be wiped out.

Cleanliness and the liberal use of the paint brush and mop and broom will make it hard for dirt to exist. If your town is spotless it will be a healthy town. And there is no better advertisement for a community than a low death rate.

Make your community clean and healthy. Wide-awake Canadian towns are conducting Clean-Up and Paint-Up campaigns, and Home and Community Beautiful campaigns as much for the sake of health as for the sake of beauty.

In Alameda, Cal., campaign workers went to the length of placarding houses with the inscriptions, "Clean," "Dirty" or "Filthy," as the case might be. It was heroic treatment but it proved effective.

Make your town a clean town and you will also make it a healthy one.

CHURCH'S NEW GOLD-PLATED ALABASTINE

#### For Health's Sake

Clean-Up and Paint-Up—Guard Against Epidemics By Removing Their Cause

Tuberculosis and other germ diseases are generally brought about by dirt and filth. The germs of tuberculosis cannot live where there is sunlight, cleanliness, and fresh air.

The scrubbing brush, soap and water, paint and whitewash are deadly enemies of tuberculosis. The easiest way to get rid of the germs that have nested in your house and around your premises is: Clean-Up and Paint-Up.

The cleaning out of filth will keep down influenza, infantile paralysis, typhoid, and diphtheria, as well as tuberculosis. And the painting brush should follow the scrubbing brush so that the cleaned places may be kept clean.

Do you want a clean town? Then do your part. Go through your house from cellar to roof and gather up all the old, useless, worn-out things stored away and get rid of them now. Clean out all rubbish, ashes, etc. in the cellars, yards, alleys, and areas.

Screen your homes thoroughly. Remove any animal or vegetable matter. Manure breeds flies, which carry disease to human beings, especially the babies. Clean out and fix up the manure bins. Repair your yard fences, poultry houses, out-houses, etc. Then paint or whitewash them. Don't spare the paint.

An ostrich's egg weighs three pounds.

## NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have things to do, try Diamond Dyes. See how easy it is to use them. They compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get one of the re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dye silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

#### CHAPTER XVII.—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the kudos of the admiring crowd; she wanted only to get away from the scene as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weary cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Lafonte urging his tired mount toward the Pemberton trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their heads and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunging for the reins, missed, then caught the stirrup. Lafonte struck the man a blow with his heavy whip that loosened his hold and felled him to the ground. Connie saw Gilla break from the crowd, jump to the saddle of a cayuse and start after the fleeing man just as the latter disappeared in the

woods. Gilla waved his hand to her and vanished in pursuit. She urged Pegana to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore, and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and his head drooped wearily as he dragged his tired limbs up the steep trail.

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms passionately around his neck and stroked his symmetrical head and neck carcases. "I'm so sorry, Peggy darling," she said in a choking voice.

The horse nipped her shoulder in a weak attempt at playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy, dear," she whispered softly as she nestled her cheek against his soft mane "do you know that I can have some nice clothes now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your mane. And you, Peggy—with a flood of tenderness in her voice—"you won all this for me."

She was crooning sweet nothings in his ear that only Pegana could understand, when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Constance darling?"

Connie stepped forward. She was pale and weak, but her colorless lips tried to form a smile. "Yes, Daddy, dear—I'm all right." Her eyes trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken flower into her father's outstretched arms. For the first time in her life Connie had fainted. The lay like a child in his trembling arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, her father carried her to the cabin and tenderly stretched the bruised little body on the coarse blankets of her bunk.

#### CHAPTER XVIII.

At the race-course the crowd eddied excitedly about the judges' stand, or stood in groups talking of the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere tyro.

Gilla came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did you get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted.

"I got the d—d skunk," he answered savagely.

He turned to a group of Indians. "You fellows'd better look out for him when you go along; his eyes ain't his kinds' head."

Donald came to the front of the judges' stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentlemen below," pointing down at Andy, "will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Give us your best."

The crowd cheered lustily. Then, fisting each other good-naturedly like a lot of schoolboys, they formed in a long queue.

Andy started the contribution by giving his whole roll of bills. Money showered upon him until he was forced to call for another hat.

"Fightin'" Jack came to Donald in great perturbation. "Say! Our gang's all story broke. Can we sign a duel-bill?"

Donald called the time-keeper. "Make her out for twenty bucks for each of us," said "Fightin'" Jack. "Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart," he murmured, "she can 'ave an 'ole shipload of them blinkin' camels' things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul.

"How is she, Doctor?"

"She's had a nasty shaking up, but there are no bones broken. She will have to remain in bed for a week or so."

Wainwright saw Donald coming and stepped outside the door to meet him. "She's sleeping," he said in a low tone. He looked questioningly at Donald as the latter passed him the package of money.

"The prize money," Donald explained.

Wainwright peeped at the contents and his face lit up with pleased astonishment. "I understood that the purse was to be a small one."

When Donald told him of the collection Wainwright's face flushed hotly. "Is that the custom?" he questioned sharply.

Donald nodded.

Wainwright peered nervously with hands clasped behind his back. "Pardon my abrupt manner," he said contritely, "I am a bit out of sorts to-day."

Every evening Donald called at the Wainwright home, bringing little delicacies carefully prepared by Andy. Once he spoke to Connie from outside the door, and her answering voice gave him an odd thrill. He pondered over this as he made his way down the hill. He was struck by a sudden thought. His face broke into a smile and he shrugged his shoulders. "Nonsense," he said aloud.

Janet remained several days after her friends had returned to the city. She tried in vain to restore the familiar relations which formerly existed between herself and Donald. His evening visits to the cabin on the mountain deprived her of his company, and she, half-jestingly, reproved him for his inattention to her. With spirits depressed and a despondent look in her dark eyes, Janet returned to Vancouver.

One evening Wainwright gave Donald a letter to post, addressed to a big departmental store in Vancouver. A few days later, there arrived numerous bundles and boxes, including a big trunk. Donald with the assistance of Gilla's crew carried them up the hill.

### CARD OF THANKS

Miss Margy McDonald wishes to thank everybody, through whose support she was able to win the prize in "The Beauty Shop" ticket selling campaign.

### Plenty of Others Like Him

Not long ago I was told of a bank which takes on a number of young men during the summer, and on their salary receipts is printed a legend something like this: "Your salary is your personal business—a confidential matter—and should not be disclosed to anybody else."

One of the boys in signing this receipt added: "I won't mention it to anybody. I'm just as much ashamed of it as you are."—Old Colony News Letter.

Two hoboes met in a blind alley. One had tried to run a business without advertising in the local paper—and the other didn't have any money either.

Maid: "There's a man at the door with a package marked C.O.D."

Bride: "Tell him to take it back. I ordered salmon."

The little boy's favorite uncle was to be married on the following Sunday, and the boy was questioning his mother about the wedding.

"Mother," he said, "the last three days they give them anything they want to eat, don't they?"

"Shut that door! Where were you brought up—in a barn?"

The man addressed complied meekly and silently. Soon the speaker observed that he was in tears, and going over to the man, he apologized. "Oh, come," he said soothingly; "you shouldn't take it to heart because I asked you if you were raised in a barn."

"That's it, that's it," sobbed the other man. "I was brought up in a barn, and it makes me homesick every time I hear an ass bray."

### Well, Why Not?

A young man who had not been married very long remarked at the dinner table the other day: "My dear, I wish you could make bread that my mother used to make."

The bride smiled and answered in a voice that did not tremble: "Well, dear, I wish you could make the dough that father used to make."

"So the engagement is off?"

"Yes. She was so indignant when she heard about what he'd done that she tore off her engagement ring and flung it on to her right hand."

Ten men are in hospital at Fernie, victims of fire that backed on them in the mine at Coal Creek. The men were endeavoring to quench a fire that had been burning for some weeks.

LOST—Ladies' Gold Parker Fountain Pen. Finder will be rewarded upon leaving same at The Enterprise office.

### CARD OF THANKS

Mrs. Frank Vojprava and family desire through The Enterprise to thank the many friends for assistance rendered in various ways during the illness of her late husband and for floral expressions of sympathy and respect as follows: Pillow, the family; wreaths, West Canadian Collieries, Ltd.; Town of Blairmore, Blairmore Hockey Club, Blairmore B. P. O. Elks No. 15; Livingstone Lodge No. 22, Knights of Pythias; Greenhill Temple No. 10; Pythian Sisters; Blairmore Miners' Union No. 1; Frank Society; Mr. and Mrs. H. Zak, Charles Chisek and family, Milton Cerney; Mr. and Mrs. P. H. Musil, Joseph Kotek and Frank Pokorney, Natal; sprays, Mr. and Mrs. Sam Patterson, Mr. and Mrs. F. A. Ruzicka, Mr. and Mrs. V. M. Ruzicka and family, Mr. and Mrs. V. F. Brindas, Michel; Mr. and Mrs. Mark Sartoris and family, Mr. and Mrs. C. J. Tompkins, Mrs. Penman and family, Mr. and Mrs. Picard and family.

### THE VALUE OF PUNCTUATION

It was and I said not or  
That that is that that is not  
How would you do it?—The Crest.

We Hope They're Clever as Well  
Cook, General—Wanted for very smart family. Apply at box.—Star.

Finklestein: "Ignatz can neffer be a good gullaf player."

Feitelberg: "Vy not?"  
Finklestein: "He neffer hollers four. Always he yells dere ninety-eight."

### Up to Date

"Mother," asked the Modern Child, as she was being put to bed, "what are prayers?"

"Prayers, darling, are little messages to God."

The modern child grew thoughtful. "Oh, I see," she said at last, "and we wait till bedtime to send them so as to get the night rate."

The Crows' Nest Chapter, I.O.D.E., will hold a sale of work and home cooking, etc., in the Elks' hall on Saturday afternoon, April 27th, from 3 to 6.

Very little business was transacted at Monday night's regular meeting of the town council. The offer of Nick Turlyuk for the purchase of a lot on the north side of the river was accepted, and lots 3 and 4 in block 7, p'an 3380-T were offered to R. Bossetti at \$100. per lot.

Orpheum, Friday and Saturday, Rex Beach's famous story, "The Michigan Kid," with Renee Adoree and Conrad Nagel. See it! You'll enjoy it!

Bottles, a trade paper, calls attention to a nursing bottle advertisement which concludes with these instructions: "When the baby is done drinking, it should be unscrewed and laid in a cool place under a tap. If the baby does not thrive on fresh milk, it should be boiled."

Monday, at the Orpheum, the greatest football comedy ever screened, "Win That Girl," with Sue Carol and David Rollins. Come and see youth tackle romance and score a thrilling victory.

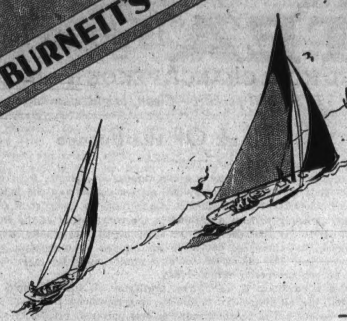

P. Misera, of Coleman, was fined \$25 and costs for negligent driving. This was the aftermath of an accident which occurred near the telephone office here last Saturday night. D. Marko, of Coleman, also paid a fine of \$15 and costs for speeding through Blairmore on Sunday afternoon.

Five carloads of good roads boosters from Lethbridge attended the big meeting at Pincher Creek last night. Quite a number from Medicine Hat were also in attendance.

Mr. and Mrs. George Wilson, after a stay of a week or so at Coleman, left last week end for Nelson, where they will make their home.

Arbor Day has been set for Monday, May the 6th.

Pat happened to notice a large sign in front of Max Goldstein's place of business and stopped to read it. It read: "Ladies Ready to Wear Clothes."

"Mike," said Pat, "sure and I think it's about time."

Old man Smith was asked what he thought of a former clerk who had left him and set up in business for himself and was giving the old man some pretty stiff competition.

"Why that fellow is a sharper, a thief and a liar and I taught him all that he knows."

Hillcrest were beaten 5-0 in a soccer game at Michel on Sunday afternoon.

# SPRING SHOWING

*of the*

## NEW CHEVROLET SIX

*—a Six in the price range of the four!*

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you every advantage of six-cylinder performance in the price range of the four . . . six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder acceleration.

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies. Longer lower and roomier . . . finished in striking new colors . . . and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.

## BUILT TO A FINE CAR IDEAL

THE Finer Oldsmobile is built as a fine-car should be built . . . to exacting standards of precision . . . to artistic conceptions of style . . . to an almost aristocratic idea of comfort.

Its high-compression engine, developing fully 62 horsepower, offers refinements never before available in any but three or four of the highest-priced cars, such as pressure lubricated piston-pins.

Its bodies are fine-car bodies . . . superb creations of Fisher skill and craftsmanship. Outside and inside they bear the unmistakable evidence of luxury.

And a host of extra features, additional refinements such as full-size radiator shutters, adjustable driver's seat, fine-car combination six-spoke system, Lovejoy Shock Absorbers, make Oldsmobile's LOWER prices almost unbelievable. Come in and judge the car for yourself.

## Think Of The Future

A condition of prosperity prevails throughout Canada from coast to coast. It is not confined to any one section nor to any one industry or group of industries. There is, in fact, a generality to the existent favorable situation probably without a parallel in the past history of the Dominion. This is not to say that everybody or every industry is equally prosperous, or, indeed, that there are not those who do not enjoy prosperity. The contrary is true. But taking Canada as a whole, and in the major activities of its people, prosperity reigns today.

Such a condition is, of course, gratifying. Nobody would have it otherwise, and all desire that it shall be long continued. But there are dangers to be avoided in times of more or less universal prosperity which do not present themselves when times are hard and business depression rather than business activity is in evidence. It is an old and often proved statement that many people who can stand strong and true through the strain and stress of adversity, and won through to ultimate victory, have crumbled and broken when favored with prosperity and success.

Canada is prosperous today, and it should take full advantage of its present favorable position. The people are optimistic and should continue so. They should continue to show vision, courage, and engage in constructive development. They would be unworthy of their heritage and the future possibilities of their Dominion if they acted otherwise. But they should nevertheless have a care in the enthusiasm of the glowing present not to forget the years to come.

Just as night follows day, winter follows summer, youth grows into old age, and death is the ultimate ending of birth, so is it inevitable that, in course of time, depression in business will follow buoyancy. A pendulum swings just as far one way as it does the other. It is a wise man and a wise community, therefore, which when times are good and development is the order of the day, takes thought of, and prepares for that future day when retrenchment may become a necessity.

If growth and expansion is artificially pushed too far; if an individual or a community becomes committed to large future obligations in order to further speed up present development, they may find themselves in great future difficulty.

All countries, all communities, most individuals, have passed through such bitter experiences. Western Canada has not been immune from them, and those who recall the "boom" days of the past know that the period of adjustment following the collapse of a "boom" was much longer than the "boom" itself, and that in the final analysis the losses far out-weighed the gains.

At the present time all our Western cities, towns, villages and rural municipalities are planning their programmes for 1929. Times are prosperous, the country is growing, and the almost universal demand is for increased expenditures to provide this and that. Today it is possible and comparatively easy to borrow the money to carry such enterprises through and to meet the initial interest charges. But a debt is created which will remain for years to come. When the present buoyancy subsides, when money is less easy to obtain, when depression and some degree of unemployment replaces present favorable conditions in business, will the load be too heavy to carry?

It will be unless care is exercised by all civic and municipal authorities in seeing that the safety line in expansion is not passed, and that expenditures now made are for permanent constructive work which will be revenue producing in the years to come. Extravagance in ideas is no more justified in times of prosperity than they are at other times. It is in those "other times" that the bills really have to be paid.

Developmental works are necessary and are justified in times of prosperity, when they would be suicidal, in fact quite impossible, in times of depression. When depression prevails it is frequently impossible to provide for even imperative and wholly justified expenditures. These must be provided when times are prosperous. It then becomes an equally imperative duty to provide them.

But non-essentials, no matter how desirable they may be in other respects, should be carefully considered less citizens, the taxpayers, are unthinkingly swept into the authorization of expenditures which later on they may have cause to bitterly regret.

Such words of warning are unnecessary in times of depression; it is now, when prosperity is with us, that warnings are necessary and should be heeded.

## Farm Loans Soon Available

Ottawa Ready To Administer System To Canadian Farmers  
Alberta and British Columbia lead the provinces of Canada in the move to take advantage of the long term loan system, given to farmers through the Canadian Farm Loan Board. In these two provinces provincial boards have been nominated by orders-in-council. This was announced by Dr. J. D. MacLean, commissioner of the Central Board, following the first meeting of that body since he returned from an organization tour of the west.

At the meeting, a statement given out by Dr. MacLean says, there was general discussion with respect to the progress of the work of the board, both at head office and where the branches are organizing. Machinery in Ottawa is complete for the administration of the long loan system to Canadian farmers. It remains only for the provinces to form their boards and for the federal and provincial bodies to deal with the applications for funds made to them. He expects loans to be made to farmers in the near future.

## Record Best Acreage Predicted

All records for best acreage in southern Alberta threaten to go by the boards in 1929. Pre-sign-up indications are that there will be over 10,000 acres of land planted to this crop if the spring outlook is at all prosperous.

## Prince Has Turned Author

Writes Foreword To Final Volume Of Merchant Navy

The Prince of Wales has turned author, or at least has written a foreword to the third and final volume of the Merchant Navy by Sir Archibald H. Hurd. The foreword was written in his capacity as Master of the Merchant Navy and fishing fleet, conferred upon him by the King last year.

Paying warm tribute to the British mercantile marine, the Prince refers to the thrill that he has always experienced in his world-wide travels at the sight of the red ensign. He refers to the work of the merchant marine in the world war as having provided the final test of a heroism unparalleled in history.

## A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the springtime, like most of the customs of our grandfathers, is based upon sound common sense and good medical practice. Winter is a wearying way a trying time for those who are not in rugged health. Many men, women and children go through the winter on nervous strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to the easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville, Centre, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I scarcely got about, and my household work left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition. When I began taking Dr. Williams' Pink Pills, I soon found that I was in a very different condition. When I fully regained my health, since then I always take a few boxes of the Spring tonic and energy to the best results. I therefore cheerfully recommend these pills as the best of health builders."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## The Newest Invention

Wrist Watch When Worn Three Hours Winds Itself

A self-winding watch has been invented by a Lancashire artisan. Finding that seventy-five per cent of watch troubles were caused by dirt or moisture entering through the aperture of the winder, he set out to make a watch which would be completely enclosed. In two and a half years, working at his spare time, he succeeded. The new wrist watch winds itself. To keep it going all the owner has to do is to wear it for three hours a day. It can not be overwound.

Lots of people make trouble and then don't know what to do with it.

—they call him  
The man you can't rattle

Many successful business men regularly use Wrigley's. The act of chewing has a soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth, gently stimulates the flow of the natural juices—stimulates the nervous system.

## Farmers Show Interest In Valuable New Book

"Field and Farmyard" Being Distributed Free To Farmers

The new book "Field and Farmyard," which is being offered free to farmers by Imperial Oil Limited, has aroused a great deal of interest among farmers, and is creating for itself a great deal of favorable comment.

The book deals with practical farming problems covering different phases of cropping and livestock, as well as livestock breeding, and has been judged by all classes of farmers in all sections of the country as a most authoritative work. In publishing the book, Imperial Oil Limited secured the services of a large number of outstanding authorities, and were fortunate enough to have in Canadian Agriculture, by-words in Canadian Agriculture, cover individually the subjects on which they are admittedly experts.

Dr. C. E. Saunders, producer of Marquis Wheat, is one of the noted authorities whose views on grain farming are featured in "Field and Farmyard." Other men whose reputations are familiar to most Canadian farmers, and who are contributors to the book are: W. I. Carlyle, manager of the E. P. Ranch, Alberta; Robert M. Holby, Ontario Fieldman for the Canadian Holstein Breeders' Association; Col. Hartley Bull, Hon. President of the Canadian Jersey Cattle Club; W. A. Dryden, chairman of National Livestock Records Board; Col. Robert McQueen, President of the Canadian Co-Operative Wool Growers' Association; Thomas McMillan, M.P., one of Ontario's most famous farmers; Geo. B. Rothwell, Dominion Animal Husbandman of Experimental Farm; Dr. Robert E. Jenkins, Manager of the Donalds Farms, Ontario; Hon. J. D. McCreary, Minister for Manitoba and well-known Western farmer, and many others.

The general M.P. note contained in the book has been compiled and written by the Hon. Duncan Macdonald, former Minister of Agriculture, and Hon. John Martin, Minister of Agriculture.

Distribution of the book is now being carried out, and a large demand for copies indicates that in providing at no charge, a tremendous amount of valuable farming suggestions and practical facts contained in it, Imperial Oil Limited has instituted a service quite unique in the industrial history of Canada.

As a verifiably effective preparation is Mother Graves' Worm Expeller and it can be given to the most delicate child without fear of injury to the constitution.

**Primitive Lights**  
Before the coming of the oil lamp lighthouses were lit by candles or coal fires. The last of the latter was the lighthouse at St. Bees, where a coal light burned until 1822.

## Keep Your Health

TO-NIGHT TRY

**Minard's Liniment**

for that cold and tired feeling.

Get Well—Keep Well.

**KILL FLU**

by using the OLD RELIABLE!

Minard's Liniment Co., Ltd., Vancouver, B.C.

A new German cruiser to be constructed at Kiel, is to be electrically welded, no rivets being used in any part of the ship.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition favorable to work and there will be no revival of the pests.

"I wonder why they say 'Amen' and not 'Awwomen' Bobby?"  
"Because they sing hymns and not hymns, stupid."

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Gillett: "Did you ever kiss a girl when she wasn't looking?"  
Terry: "Not when she wasn't good-looking."

Use Minard's Liniment for the Flu.

## A "Tramp" Of The Skyrays

New British "Plane Built To Carry Bulkiest Articles

The bulkiest articles can be transported across the world at a speed of 100 miles an hour in a new British aeroplane which has recently passed the fullest flying tests.

Its spacious cabin looks like a railway baggage van, for the machine has been built as a "tramp" of the skyways. It is known as the Vickers Dello and can be used as a freight-carrier, for the transport of troops or as a long-distance bomber.

The two Napier Lion engines have 1,000 horse-power, and with extra tanks to carry additional petrol the machine could remain in the air for between seventy and eighty hours.

Electricity supplies the lighting of this aerial pantechonicon. The sides and roof are reinforced with wooden stays, and the floor, built up of wood in the manner of the Underground railway carriage, is similarly strengthened.

The Oil Of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

## Expenditures On Canadian Roads

In 1927 federal, provincial and municipal expenditures on the improvement and maintenance of Canadian roads amounted to \$45,700,000.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Prof.: "Can you give me an example of a paradox?"  
Flebbe: "A man walking a mile but only moving two feet."

## Simple Precautions Against FLU

### Sore Throat —

### — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

You Actually save money ON HEAVIER, STRONGER GATE.

**HOT GALVANIZED**

## Amazing Gate Value!

As long as you live your Frost Gate will positively defy strain and rust. The entire surface of the frame, the welded joints and fittings are **HOT GALVANIZED** by our own method used only in the Frost Factory. The fabric has the famous Frost Tight Lock. Heavier, stronger hinge bolts, clips and other super strength features. This sturdier, heavier gate costs less per pound of its weight. Investigate this astonishing value made possible by Frost methods and tremendous demand.

If there is no Frost dealer in your neighborhood, write to our nearest office.

## BUDGET PASSED BY MAJORITY OF 24 VOTES

Ottawa.—The budget passed the House of Commons by a majority of 24 votes.

The final division, which resulted in the casting of 107 votes for the budget and 83 against, followed closely along party lines. All the Liberals, Liberal-Progressives, the two Independents, A. W. Nell, of Comox-Alberni, and Henri Bourassa, of Labrador, H. B. Adhead, Labor member for East Calgary, and L. H. Jaffar, U.F.A. member for Lethbridge, supported the government's motion.

In opposition were all the Conservatives, all members of the U.F.A. group with the exception of Mr. Jaffar, all the Progressive members and J. S. Woodworth, Labor member for Winnipeg North Centre, A. A. Heaps, Labor member for Winnipeg North, was not in his seat when the final division took place.

The vote on the main budget motion eliminated the most colorful day which the House of Commons has seen so far this session. Two other divisions resulted in the defeat of the sub-amendment and amendment to the main motion, which had come from U.F.A. and Conservative ranks respectively.

The U.F.A. sub-amendment, which in brief, asked the government to consider the British preference, was suggested by the substantial majority of 136. Its support came only from members of the U.F.A. and Progressive groups and the two Labor members, Messrs. Woodworth and Heaps. Against it were lined up Liberals, Liberal-Progressives, Conservatives, the two Independents, Messrs. Nell and Bourassa, and H. B. Adhead, Labor member for East Calgary.

The majority against the Conservative amendments was 62. This amendment received its entire support from the Conservative party. All other members in the House were opposed. The Conservative amendment, which was moved by Hon. Hugh Guthrie, expressed regret that the budget made no provision "for reasonably safeguarding and protecting the interests of those engaged in agricultural pursuits or in industrial employment in Canada."

## Should Share Research Funds

Fortion Should Go Toward Education Says Toronto School Board Member

Vancouver.—A portion of the funds available for research under the direction of the Dominion Government Research Commission should be set aside for investigation of educational methods, was the suggestion made by Mrs. H. Plimpton, member of the Toronto school board, speaking at a luncheon tendered by the Vancouver school board to school officials now here as delegates to the National Council on Education. Much is said regarding the development of natural resources and the protection of these, but Mrs. Plimpton said the training of the Canadian children was equally important.

## Aviator Performs

Dangerous Stunt

Makes First "Outside" Loop Ever Negotiated in Commercial Plane Minneapolis, Minn.—Charles W. (Speed) Holman, holder of the world's record of 1,433 consecutive loops, claims the distinction of having made the first "outside" loop ever negotiated in a commercial plane.

Holman performed the feat at an altitude of 4,000 feet over World-Chamberlain Field here. He used the same Wright Whirlwind-motored bi-plane with which he won the New York-Seattle air derby two years ago.

The outside loop, regarded by aviators as one of the most dangerous "stunts" they had never been completed before except in strong, especially constructed army planes.

## Savings Deposits Less

Ottawa.—Savings deposits in Canadian banks decreased by more than \$7,000,000 during February, according to the monthly bank statement issued through the department of finance.

Railway locomotives now weigh as much as 250 tons.

W. N. U. 173

## Long Term Leases For Churchill Lots

Will Probably Be For 99 Years Says Hon. D. G. McKenzie

Winnipeg.—Leases of lots in the townsite of Churchill, terminus of the Hudson Bay Railway, will probably be for 99 years, transferable and subject to revision as to rate at the end of five years, and each ten year period thereafter, it was stated by Hon. D. G. McKenzie, minister of mines and natural resources for Manitoba. It was intimated a few days ago by Premier Bracken, that the government did not intend to sell lots at Churchill. Interest in the settlement of Manitoba's northern seaboard continues to increase, Mr. McKenzie said. The government will concentrate its work on the townsites of Cranberry Portage and Sheritt-Gordon, the minister added.

## Will Join Los Angeles To London Flight

Australian Aviator Plans To Accompany Captain William Lancaster

Redbank, N.J.—Mrs. Keith Miller, Australian aviator, who flew with Captain William Lancaster from London to Australia, has said she would be second pilot and radio operator on a proposed flight from Los Angeles to New York, London and return.

Captain Lancaster will be pilot on the projected flight and Captain Harry Lyons will be navigator. Mrs. Miller said, that she hopes to take off from Los Angeles in June. They plan to reach New York in one hop and fly between the east and west coast on their return without stopping. They will use a tri-motored all-metal closed plane.

## Questions Gun Boat On Lakes

Ottawa.—Questions regarding the approach to the Canadian shore in one of the great lakes recently of a U.S. gunboat have been placed on the order paper of the House of Commons by Gen. A. E. Ross, Conservative Minister of Militia and Defence. He asked the government to furnish information as to whether there is an agreement between the two countries for the use of gunboats on the great lakes and if Canada has any armed boats thereon.

## Former Doorn Official Arrested

Berlin.—Police admitted that they had arrested Karl Hartung, recently secretary to the former Kaiser's wife, Hermine. The arrest had been kept secret. It was reported Hartung had threatened to make "revelations" about conditions at Doorn Castle in Holland.

## SUNDAY SCHOOL LESSON

APRIL 21

### COMFORT FOR GOD'S PEOPLE

Golden Text: "As one whom his mother comforteth, so will I comfort you."—Isaiah 66:13.

Lesson: Isaiah 40:1-11.

Devotional Reading: Psalm 30:1-5.

### Explanations and Comments

The People of Judah have suffered their Full Penalty, verses 1-2. We pass today in thought from the time when Judah was enjoying great prosperity under good King Hezekiah (our last lesson), to the time when Jerusalem had fallen prey to the Babylonian power and had been laid waste, and the majority of her people carried away into exile in Babylon. Comfort ye, comfort ye my people, saith your God. How great was the people's need of comfort as shown in Isaiah 40:27; 49:14. Who the "ye" are problematical: "The prophets, or the people, certainly not the priests." The prophets may be nameless, but the Deity who speaks through them speaks as already known and acknowledged: "My people, saith your God." By these impersonal voices as a personal revelation is made.

Speak ye comfortably to Jerusalem. Speak comfort to the heart of Jerusalem, is Dr. McFadyen's translation. The prophets were to put hope into the heart of the exiles, to strengthen them by an assurance of a speedy return to the home land. Jerusalem (then in ruins) is an ideal representation of the people. "The city had suffered in and with her exiled people as long as her exile was here."—G. W. Wade. Tell her that her warfare is accomplished, that her service, her exile, is over; that her iniquity, her guilt, is pardoned; that she has received double the penalty (ample punishment) for her sins.

The prophet's charge is laid upon all who would speak of Christ to men. Speak to the heart, not only to the head or the conscience, God bestows in the person of his ambassadors. The substance of the message may well find its way to the heart, for it is the long, hard service of the term of exile is past, that the sin which brought it about is forgiven, and that God's mercy reckons that the file which follow have more than expiated it.—Alexander MacLaren.

## Tornado In Arkansas

Death and Destruction Follow In Wake Of Storm

Little Rock, Ark.—A tornado from out of the southwest swept through North Central Arkansas leaving a death toll of at least 20 persons, with indications it might mount considerably. A large number are injured and property damage is heavy.

The storm apparently wrought greatest havoc near Jefferson, north of Newport, where sixteen bodies had been recovered. Alicia, a few miles north of Swifton, also was reported to have had several deaths but telephone and telegraph lines were down, and the reports could not be verified.

At Swifton, the rapidly with which the death toll was increasing caused predictions that it would reach 40 or 50 when all communities in that section had been heard from.

## New U.S. Ambassador To Great Britain

Appointment of Former U.S. Vice-President Is Announced

Washington.—Formal announcement of the appointment of former Vice-President Dawes as ambassador to Great Britain has been made at the White House. The appointment was made after receipt of word from the state department that the British government had advised that the appointment of Gen. Dawes would be entirely acceptable to the King.

## NEW RECORD IS SET IN C. N. R. REPORT FOR 1928

Ottawa.—The railway operating revenue of the Canadian National for the year 1928 reached the record figure of \$276,631,921. After payment of operating expenses, amounting to \$218,248,341, taxes amounting to approximately five million dollars, and other charges, the total operating income was \$53,213,729 compared with \$40,789,724 in 1927.

The report of Sir Henry Thornton, chairman and president, covering the operations of the system in 1928, was tabled in the House of Commons by Hon. Charles A. Dunning, minister of railways and canals. It tells of the progress made by the publicly owned system in its various departments.

The ratio of operating expenses to gross earnings in 1928 was 78.86 per cent. as against 81.75 per cent. in the previous year.

The gross earnings exceeded those of 1927 by \$37,915,546, (11.2 per cent.). Freight traffic produced \$209,496,962; passenger traffic, \$34,187,023; express, \$13,307,373; mails \$3,099,212, while miscellaneous operations produced \$16,598,348. Passenger revenue increased 1.7 per cent. over the figure for 1927. Gross express revenues were increased by \$695,847 (5 per cent.).

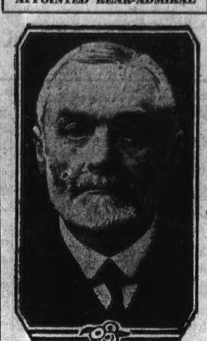

The total Dominion grain crop harvested in 1928 was approximately 1,200,000,000 bushels. The report estimates an increase of nearly 10 per cent. over the figure for 1927. For the calendar year grain delivered on the western region of the C.N.R. were nearly 37 per cent. over the former record made in 1923.

## YOUNG BRITISHERS FOR CANADA

Thirty young men, recruited from the industrial areas of Great Britain for the farming lands of Canada, on their way to Norval, Ont., where they will be given special farm training before assuming their roles as farmers. They were brought to Canada on the C.P.R. liner "Duchess of Richmond," under the auspices of the national headquarters of the Y.M.C.A. in England. The picture here shows a typical group on the train taking them to their new homes.

## APPOINTED REAR-ADMIRAL

Admiral Sir Montague Browning, who has been appointed rear-admiral of the United Kingdom in succession to Sir Stanley Colville, Sir Montague Browning was with the grand fleet during most of the world war.

## More Settlers Going Into Peace River

Figures To Date Show Large Increase Over Last Year

Edmonton.—Nearly 1,000 settlers with a total capital estimated at approximately \$1,150,000, have gone to the Peace River country as new settlers to date this year, according to colonization officers here.

The rush of settlers commences in April. Last April 1, 200 settlers went in. This April conservative estimates place the figure at 1,500, and the good start already made this month indicates that this estimate is likely to be exceeded.

The settlers are in the majority of cases Canadian and American of excellent type, probably 90 per cent. of them are seeking homesteads, which means that the great bulk of the settlement will be on new land.

Land beyond railway extensions both north and south of the Peace are favored, the homesteads being about equally divided between Fairview, on the north side of the river, and Hythe, on the Grand Prairie extension south of the river.

## Money For Immigration

Over Million Dollars Spent In British Isles In 1928

Ottawa.—A total sum of \$1,016,202 was expended by the department of immigration in the British Isles in 1928. The sum expended by the same department on the continent of Europe alone last year, was \$75,796,67. The amount expended for obtaining immigrants in the United States was \$392,157. The aggregate amount spent by the immigration department from 1881 to 1928 was \$61,618,024.94.

The information was given in the House of Commons by Hon. Robert Forke, minister of immigration and colonization.

## Income Tax Collections

Ottawa.—There was an increase of \$2,851,250 to the total income taxes collected in the year ending March 31 last, as compared with the year before. It was announced by Hon. W. D. Fisher, minister of national revenue, in a statement issued. The total for the past year was \$59,422,297.

## Starts Tenth Annual Tour

Tree-Planting Lecture Car Coming To Western Provinces

Ottawa.—Bound on a journey of eleven thousand miles, the tree-planting lecture car of the Canadian Forestry Association has left Ottawa and will spend the next six months in daily travels to Western communities. This is the tenth annual tour of the lecture car and to intensify the educational effect, talking pictures have been installed.

The lecture car is built with a sloping floor and with seats for 125 people.

Electrical generators, radio, and other machinery are able to project talking pictures at hundreds of points on the western railways where movies are seldom seen. The instruction given in the car is extended to groups of school children who frequently require six meetings daily to accommodate them. Last year the Canadian Forestry Association visited 200 prairie communities, giving instruction in the building of shelter belts and the beautification of farm homes.

## Leaves Estate To Medical Sergeant

Army Doctor Remembers Man He Met During War

Toronto.—A friendship established during the war between a medical sergeant and his superior officer, the "M.O." is recalled through the probate of the will of Dr. W. H. Scott, of Carrot Creek, Alta.

The will provides that P. W. Houghton, D.C. M.M., and bar, Leslie of Houghton, and former medical sergeant of the First Battalion, receive \$5,000 and a section of land at Carrot Creek.

Houghton met Dr. Scott during the war when the former was confined to hospital with wounds. He saw nothing more of the doctor until 1920, when they met in Galt, Ont.

## RUST RESISTING WHEAT SOON TO BE AVAILABLE

Winnipeg.—Efforts of agricultural scientists to develop a rust-resistant wheat, which would save millions of dollars annually, are meeting with success.

At a meeting here of the Associate Committee on Rust Research, organized under the auspices of the Dominion Department of Agriculture and the National Research Council, reports delivered showed that rust-resistant wheats which appear to have good baking and milling qualities have been secured through the efforts of the plant breeders engaged on the problem and now await development.

Paying tribute to the work of Canadian scientists, especially those working on agricultural problems, Dr. J. E. Arlidge, deputy minister of agriculture of the Dominion, said that profound study and unceasing application to the problems had at last produced results which seemed in a fair way to solve the difficulties in the way of defeating the rust menace. This, he added, was obtained through the close co-operation of the plant pathologists and plant breeders.

During the sessions of the committee it was reported by L. H. Newman, Dominion cerealist, that baking tests on some 36 lines of Marquis Cross rust-resistant wheats are under way at Ottawa. Of these several showed real promise and some of them excel in baking qualities.

Members of the committee today witnessed a demonstration of a newly-developed rapid electronic method for the determination of moisture in wheat. The demonstration was conducted by Professor Burton, of the University of Toronto, and Arnold Pitt, inventor of the instrument. The instrument is not yet fully developed, but gives great promise when complete details of its operation have been worked out.

Tests developed last summer in Manitoba showed that sulphur dusting of grain is effective in controlling rust, but further research work is necessary for the development of a dusting schedule. Small plot, field and greenhouse tests were conducted. Both horse-drawn and motor-driven machines were used.

At the concluding session of the conference, Dr. Arlidge announced that a conference of plant pathologists conducting research in plant diseases other than rust would be held in Edmonton some time during the autumn.

## TWO DEFENCES FOR SINKING OF THE "I'M ALONE"

Washington.—Two defences for sinking by coast guard vessels of the rum runner "I'm Alone" are set up in a lengthy note prepared by state department officials in answer to the protest of the Canadian Government. The draft of the note waits only approval of Secretary of State Stimson. It is understood that Mr. Stimson has examined the draft, but whether he made any changes is not known. The note is expected to go forward soon.

The note supports the coast guard in sinking of the "I'm Alone" in the Gulf of Mexico, with an exhaustive review of previous rum treaty ship seizures.

It contends in the first place, it is understood, that three Canadian ships seized in recent years, the Vines, Gold Harbor and Pescawha, were halted within the treaty limit, fled and were captured on the high seas. These seizures were approved by United States courts.

The note argues that the principle involved in these seizures is the same as that in the case of the "I'm Alone" and that Canada did not protest these incidents. The state department, it is understood interprets the failure to protest as a tacit admission that seizure on the high seas under such circumstances is a proper action. The second defense involves interpretation of the rum treaty between the United States and Canada. The treaty reaffirms existence of the three-mile international limit, but it expressly grants to the United States the right to stop, search, and if the search warrants, to seize liquor boats within an hour's steaming distance of the American shore. The note contends the treaty implied the right to employ necessary force in compelling liquor vessels to submit to being stopped, searched and seized by granting the right to stop, search, and seize.

## Must Comply With Law

Canadians Have To Pay Head Tax To Enter States

Washington.—The recent ruling of the Supreme Court withholding border-crossing privileges from foreign-born citizens of Canada is construed by immigration service officials to have also a considerable effect on native-born Canadians.

R. C. White, first assistant secretary of labor, said that while the court's ruling confirmed the admitted right of Canadian citizens to enter the United States and go to work, in so doing they would have to establish the status of immigrants under United States law.

The chief effect of that will be to require Canadian citizens to pay the \$8.00 head tax as an immigrant and the \$10,000 consular visa fee, Mr. White explained. "The difficulties have been occasioned by the practice of Canadians resident along the border in obtaining employment in the United States and going to and from their foreign homes to work and back daily. The native Canadian if he intends to continue such employment in the United States will have to pay the fees and undergo medical examination, but once that is done he will have a practically unlimited right to border-crossing."

## Toronto Student Wins Prize

Awarded Thousand Dollar Fellowship For Essay On Economic Problem

Montreal.—Miss Kathleen Best, of McMaster University, Toronto, won the \$1,000 prize offered by the Royal Bank of Canada for the best paper written by a student of any Canadian university on any one of certain specified economic problems. Miss Best took as her subject "Economic Aspects of the St. Lawrence Waterways Plan."

The prize is in the form of a \$1,000 fellowship to enable the winner to pursue her studies in any Canadian University she may select. N. H. Pascoy, University of Saskatchewan, was sixth.

## Thanks Fast Necessary

Starnburg, Germany.—Count Von Bernstorff, chairman of the German delegation to the League of Nations disarmament preparatory conference, on the eve of his departure for Geneva, expressed the opinion that the out-law war pact was necessary and should be followed by world disarmament and the adoption of a general pact for settling all disputes by legal means.
